

RADIANCE SPIRITUAL

WITH PUJITHA

White shining light, which is the highest energy vibration, pervades the Universe. This is divine grace and is always flowing to all living beings on Earth as the white shining Light of Love. The white shining Light of Love is believed to directly cause, or contribute to, healing and other benefits to the individual. However, we have forgotten how to connect with this energy on our own in a way that can benefit us. The *Radiance Spiritual* energy provides that connection for us.

By her unique gift, Pujitha connects to the Light of Love divine energy, and along with prayer and the ability that the deity gave her, the energy can penetrate to the inner part of one's being in order to heal and purify the body, mind, and soul on a profound level. The energy can slowly clear one's accumulated negative energy vibrations and provide positive effects physically, mentally, and spiritually. This is the *Radiance Spiritual* energy.

Direct *Radiance Spiritual*TM session

- 1 hour

- Limited to 8-10 people

Although this is a group session, Pujitha works on each person individually, one-by-one, and directly sends the energy to the body, mind, and soul to adjust one's energy balance.

By receiving the energy to adjust one's own energy vibration, stress and fatigue can be alleviated. Within a couple of days after a session, one can regain physical and mental strengths. Furthermore, as one's natural healing ability rises, the overall health can improve, supporting recovery from an ailment. **Fee: \$50 per person**

Supporting Embracing the World®

Since 2009, all proceeds made to direct and distance Radiance Spiritual™ energy sessions at Amma's Japan program, the North American tour, and Amritapuri have been utilized for those who are in need of food, clothing, shelter, and medication all around the world. For many years, Amma has been actively helping those who live in poverty and/or are victims of natural disaster.

"There are two types of poverty in the world. The first poverty is caused by lacking material needs, and the second poverty is caused by lacking love and compassion. In this case, we need to consider the second poverty first. Because if we have enough love and compassion in our hearts, we will be sincerely able to help those who are in need of food, clothing, and shelter." – Amma –
